

Rapid infrastructure

FOR MODERN SPACES.

Explore
Configurations

The Future of Space is Not Built. It's Deployed.

Every Aeropod is manufactured off-site and delivered fully ready. Just **plug. play. operate.**

Deploy fast — weeks, not years.

Engineered for all terrains

Guest-ready from Day 1

Low-maintenance operations

Faster payback cycles

Repeatable, scalable system

Solo pod.

A compact private space designed for focused conversations, work and utility functions. Ideal for airports, offices, events, campuses and high-footfall environments where space efficiency matters.

Size

L 4' x W 3'6" x H 8'5"

Solo Pod

A compact unit for:

- Calling booths
- Help desks
- Quiet workspaces
- Security cabins

Dual Pod.

A flexible utility pod built for everyday operational needs. From washrooms and office cubicles to lounges and meditation rooms, the Dual Pod adapts to changing environments with ease.

Size

L 7'7" x W 4' x H 8'

Dual Pod

Built for:

- Washrooms
- Lounge spaces
- Office cubicles
- Utility functions

Cabin Pod.

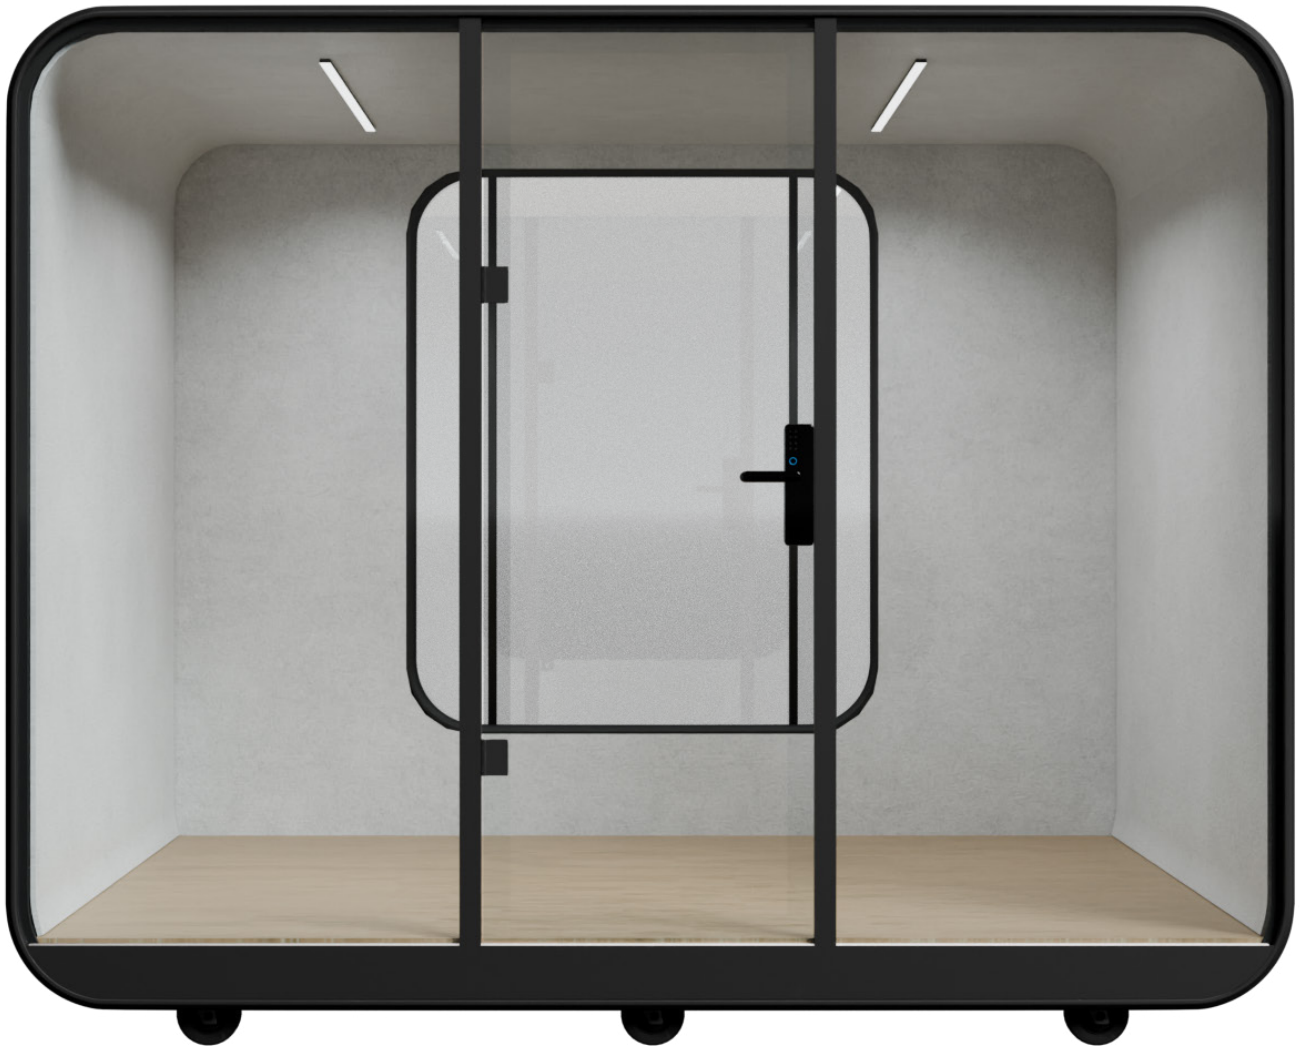

A larger modular format designed for customer-facing and experience-driven spaces. Perfect for cafés, lounges, sleeping pods, retail kiosks and compact workspaces that need to deploy fast and operate immediately.

Size
L 10' x W 7'6" x H 8'3"

Cabin Pod

Flexible units for:

- Cafés & kiosks
- Workspaces
- Lounges
- Sleeping pods

Cabin Pod - UTILITY SERIES

Highly customisable infrastructure built for specialised operational use. Designed for clinics, dispensaries, control rooms, ticket counters, refrigerated rooms and utility-led deployments across

Size

L 10'x W 7'6" x H 8'5"

Cabin Pod

Flexible units for:

- Cafés & kiosks
- Workspaces
- Lounges
- Sleeping pods

AeroPod
Space redefined

Room Pods

A ready-to-deploy room solution built for hospitality, work and extended stays. Designed to function as resort rooms, studio spaces, meeting rooms or compact living environments — without traditional construction timelines.

Size

L 14 x W 7'6" x H 8'3"

Premium Room Pods

Designed for:

- Stay units
- Office suites
- Training / meeting rooms

Premium Room Pods

A spacious, high-comfort pod designed for premium stays and executive environments. Ideal for luxury hospitality, office suites and elevated customer experiences where design, speed and functionality come together.

Size

L 20 x W 7'6" x H 8'3"

Premium Room Pods

Designed for:

- Stay units
- Office suites
- Training / meeting rooms

Luxury Room Pods

A flagship modular suite designed for high-value environments. Built for premium hospitality, private retreats and executive meeting spaces that demand presence, comfort and flexibility.

Size

L 20 x W 12 x H 9'

Luxury Room Pods

For high-value environments:

- Premium stays
- Private suites
- Conference spaces

This is just the starting point.

From unit to infrastructure.

1 Pod → Multiple Deployments → Full Infrastructure Layer

System Features

- Reconfigurable and movable
- Standardised utilities and finishes
- Customer ready from Day 01
- Customisation available

Built like infrastructure.

Structural Integrity

Heavy-duty mild steel structure

Precision welding

Reinforced base chassis

Rust-proof coating

Material Advantage

Impact-resistant

Weatherproof & UV resistant

Low maintenance

Long lifecycle performance

Wall System

Insulated sandwich panels

High-density core

Exterior weather-resistant cladding

Interior finished panels

Built for Real Conditions

Engineered for heavy footfall

Factory-built precision

No on-site variability

Plug-and-play utility connections

Built like infrastructure.

Electrical

Pre-wired
internal layout

LED lighting
provision

Switches & sockets
installed

Plumbing (Model dependent)

Concealed water
line provision

Drainage outlet
provision

Washroom-ready
structure

Mobility & Deployment

Transportable
modules

Crane-lift
ready

Minimal foundation
requirement

Windows & Doors

Powder-coated
aluminium

Toughened
safety glass

Sliding / hinged
systems

Designed in India.
Engineered to global standards.

You don't need to build it anymore. You can deploy it.

Why this works:

- **Faster deployment**
Ready in weeks, not months
- **Lower initial cost**
Flexible to scale
- **Zero disruption**
No on-site construction zones
- **Infinitely scalable**
Standardised to expand across locations
- **Data-ready utilisation (optional)**
Track usage, optimise performance

The Aeropod Edge

- Built off-site
- Delivered ready
- Operational from day one
- Designed for real environments
- Scales with demand

Imagine this in your space.

Space should be as dynamic
as the business it serves.
